Putting the EOSC vision into practice

A nighttime photograph of the Parthenon on the Acropolis in Athens, Greece. The temple is brightly lit with warm yellow lights, contrasting with the dark sky and the silhouettes of the surrounding city and mountains. The text "Some text that should be centered" is overlaid in a large, white, sans-serif font, centered horizontally and vertically over the image.

A nighttime photograph of the Acropolis in Athens, Greece. The Parthenon and other ancient structures are brightly lit with warm yellow lights, standing out against the dark, silhouetted hills and the city below. The sky is a deep purple and red from the setting or rising sun. In the background, the sea is visible with a few ships. The overall scene is a classic representation of ancient Greek architecture at night.
