Weingarten

A theme for LaTeX- Beamer

Your name

Your institute

Januar 2009

Outline

- The theme „Weingarten"
  - General things
  - What you can do

Weingarten
Some facts about the theme

Something about the theme "Weingarten":

- ▶ It's under the GPL, so you can modify it by your own.
- ▶ The colors which are used are the colors of the Weingarten (http://www.weingarten-online.de/), the city where I go to school.
- ▶ The theme is called „Weingarten", because the themes of LATEX-Beamer are always named after some cities - and this is the city where my ¨institute¨is :)
- ▶ Have a lot of fun with this theme!

The title of your frame
And the Subtitle

You can use blocks to structure your topic

Here's your very interesting content :)
